INSTRUCTION BOOKLET

Look for this seal on all software and accessories for your Nintendo Entertainment System. It represents Nintendo's commitment to bringing you only the highest quality products. Items not carrying this seal have not been approved by Nintendo, and are not guaranteed to meet our standards of excellence in workmanship, reliability and most of all, entertainment value.

Thank you for selecting the Nintendo Entertainment System® Super Team Games™ Pak. This game requires the Power Pad™ attachment.

Please read this instruction booklet to ensure proper handling of your new game, and then save the booklet for future reference.

PRECAUTIONS

1) This is a high precision game. It should not be stored in places that are very hot or cold. Never hit or drop it. Do not take it apart.
2) Avoid touching the connectors, do not get them wet or dirty. Doing so may damage the game.
3) Do not clean with benzene, paint thinner, alcohol or other such solvents.

Note:
In the interest of product improvement, Nintendo Entertainment System specifications and design are subject to change without prior notice. This game has been programmed to take advantage of the full screen. Some older model T.V.s have rounded screens and may block out a portion of the image.

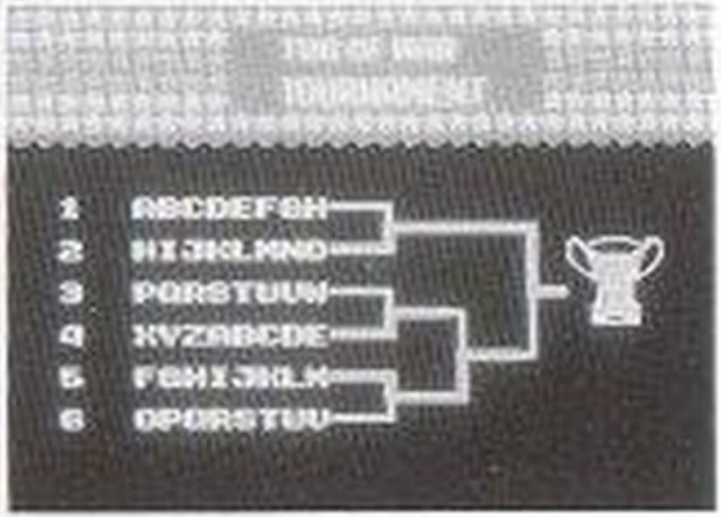
2) When the START button is pressed again, the next VS display appears. Check how far the Tournament has proceeded, press the START button and move onto the next Event display.
3) The Trophy is presented to the winning team.



5. PLAYING TIPS

- Before starting a game, warm up with a few light stretching and jumping exercises. Hurrying into strenuous exercise is not good for your health.

- If the Power Pad moves during exercise and hinders your enjoyment of the game, use tape at the four corners to secure it so it doesn't move.

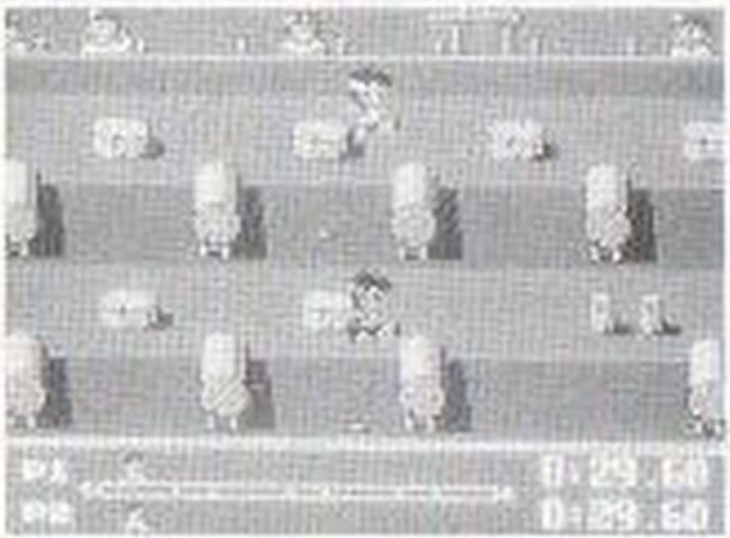
Watch out!

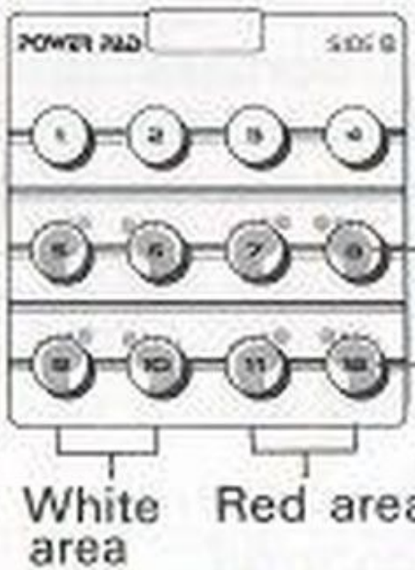
Excessive exercise can be harmful. Limit your game play to 1 hour a day.

6. HOW TO COMPETE IN EVENTS

(Log Hop)

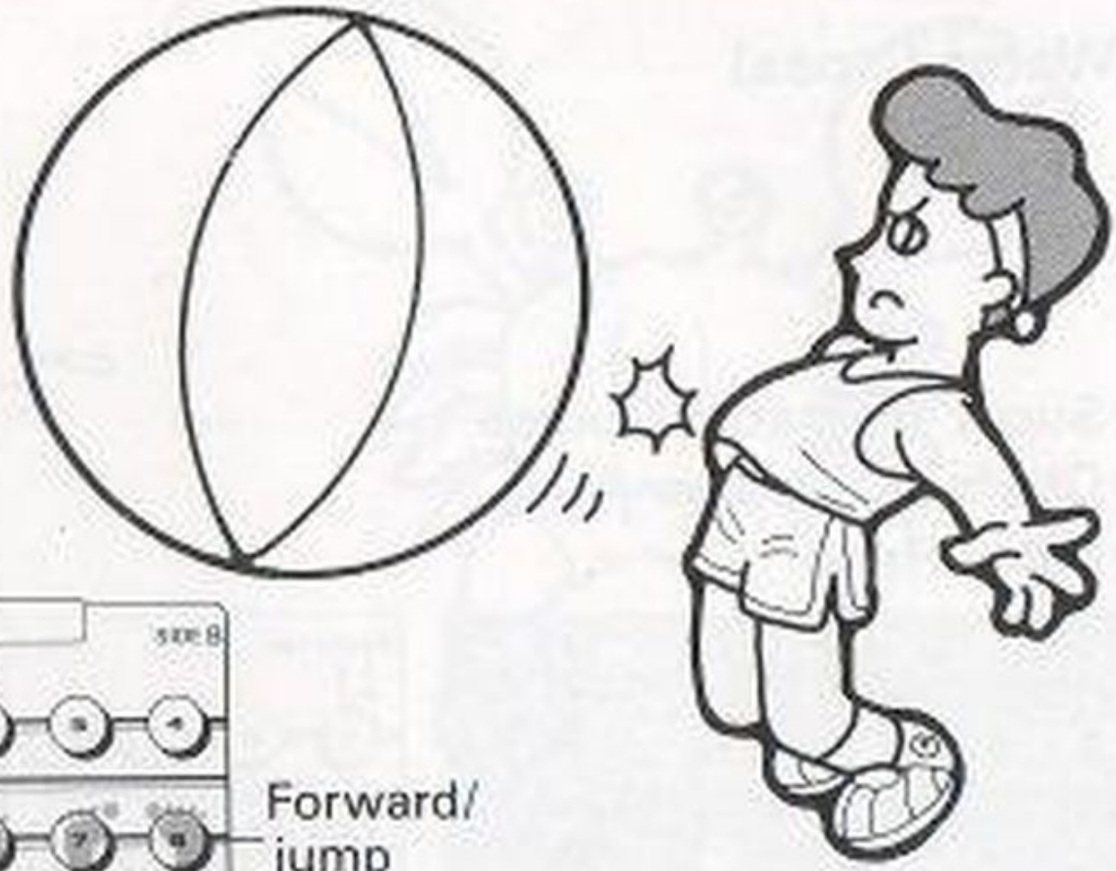
- Super Obstacle Course
- Obstacle Course A
- Relay Race



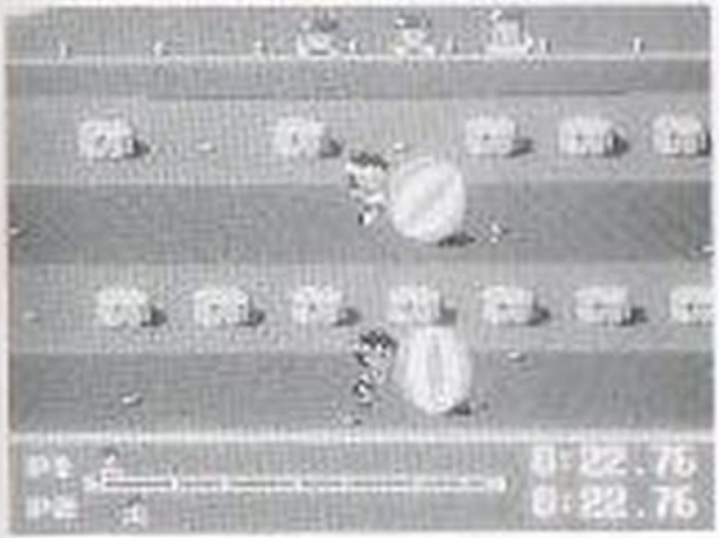


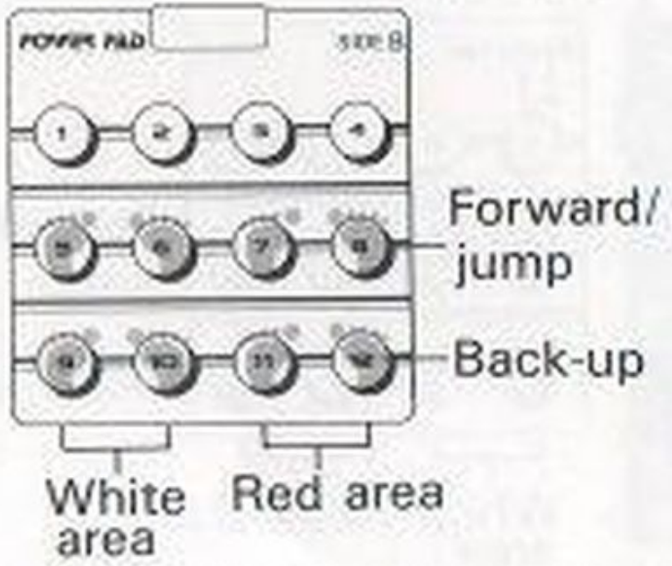
This is the basic game play for most of the events in the Super Team Games. Run! Run! And keep on running! When you get to an obstacle, judge your timing and jump. The on-screen character will jump with you as you clear the obstacle.

(Belly Bump Ball)



- Super Obstacle Course
- Obstacle Course B
- Relay Race

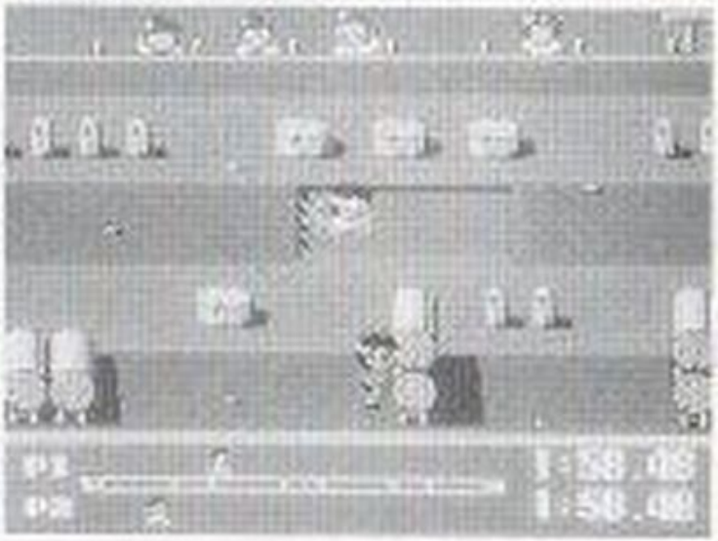


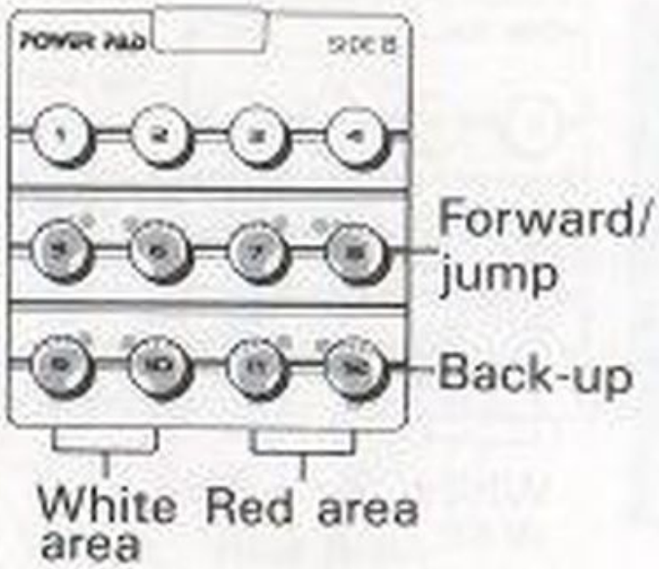


The big ball will roll a long way if you run into it very fast. It might be a good tactic to take a step back before running at the ball!

(Water Cross)

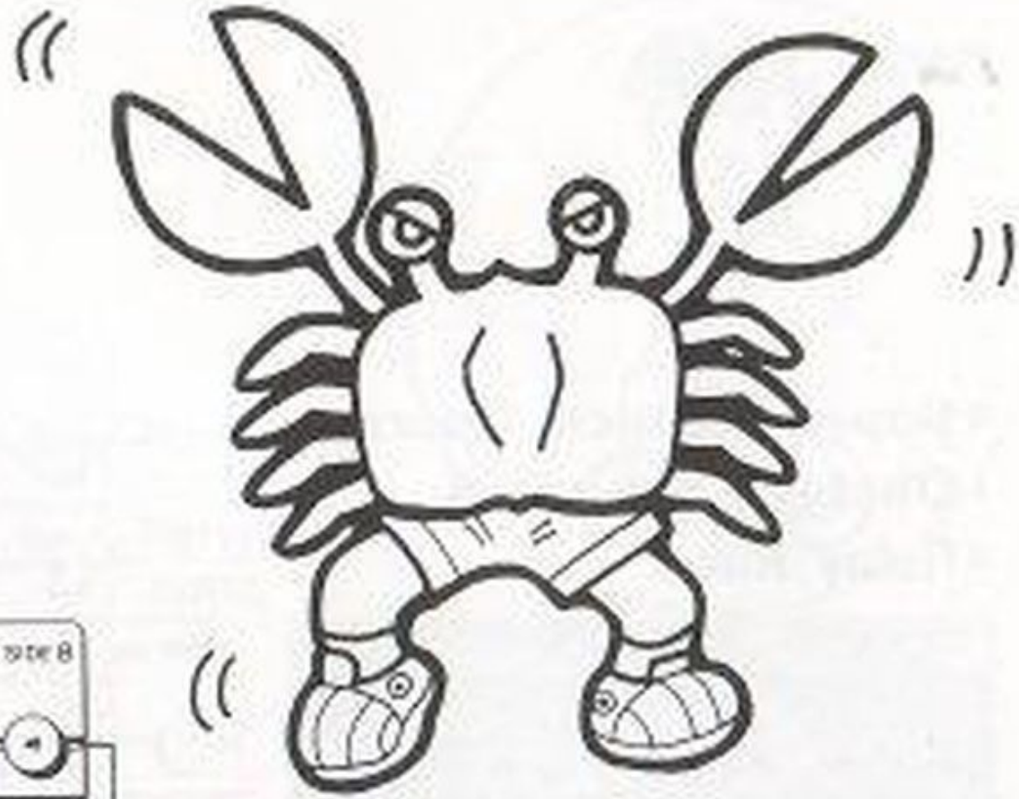
- **Super Obstacle Course**
- **Obstacle Course A**
- **Relay Race**



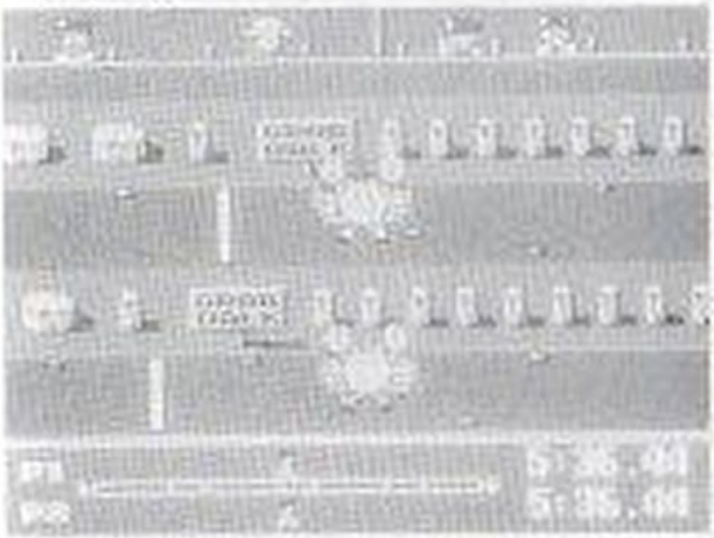


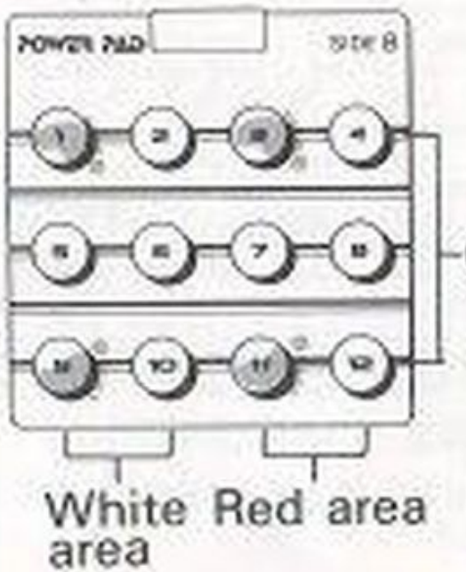
Jump just in front of the water. If you judge your timing right, you'll jump over it and land on the other side. Even if you land in the water, just keep on running! This will get you out of the water, but it really slows you down.

(Crab Walk)



- Super Obstacle Course
- Obstacle Course B
- Relay Race

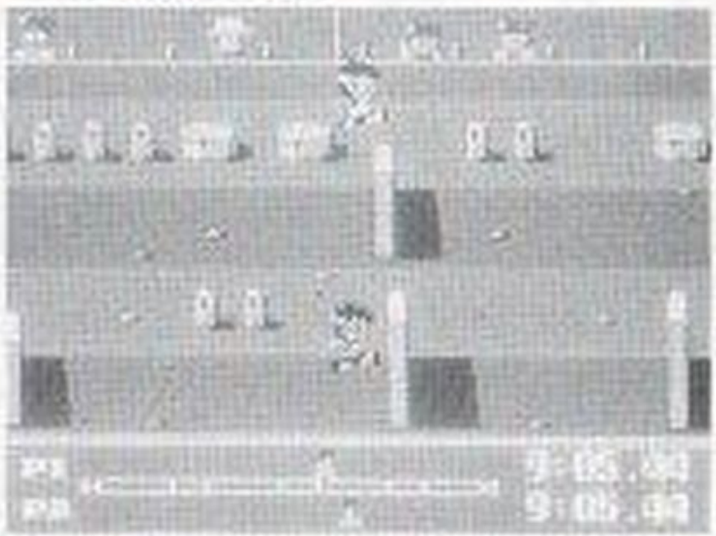




In this event, you walk like a crab and side step your way around the track. This is pretty tiring, as you must keep your legs spread wide apart to side step.

(Wall Jump)

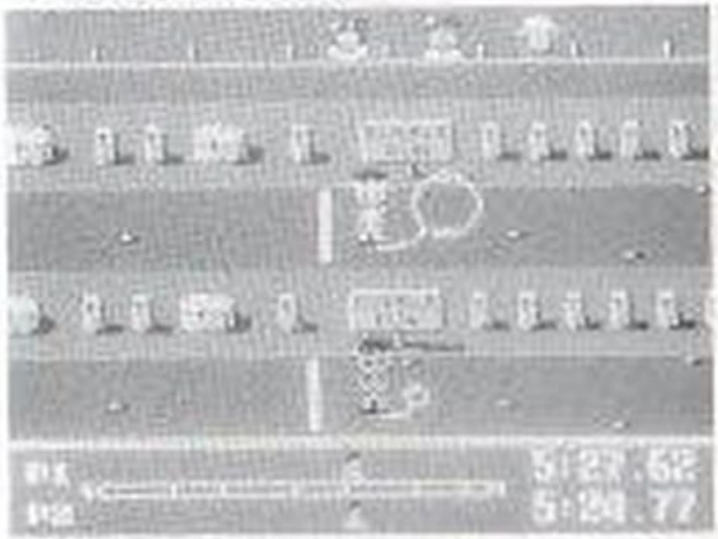
- Super Obstacle Course
- Obstacle Course A
- Relay Race

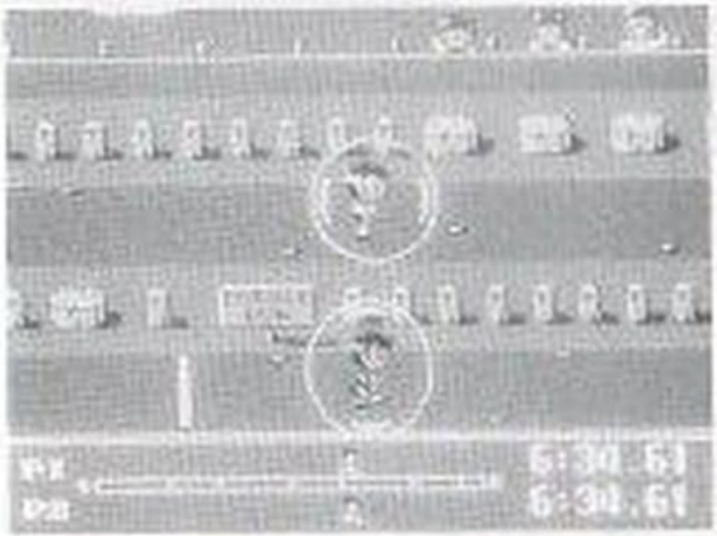


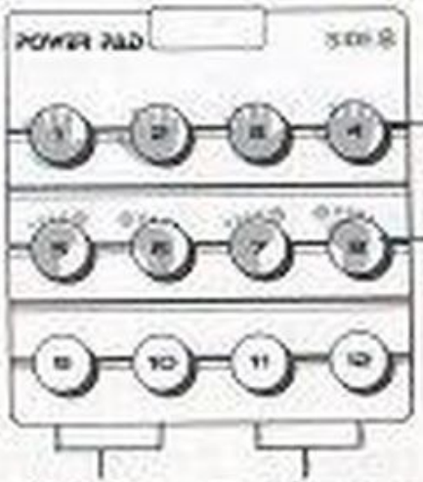
This is just like the Log Hop, except that, in place of the logs, you now have high walls to clear. You won't be able to manage this unless you put lots of energy into your jump.

(Bubble Run)

- **Super Obstacle Course**
- **Obstacle Course B**
- **Relay Race**



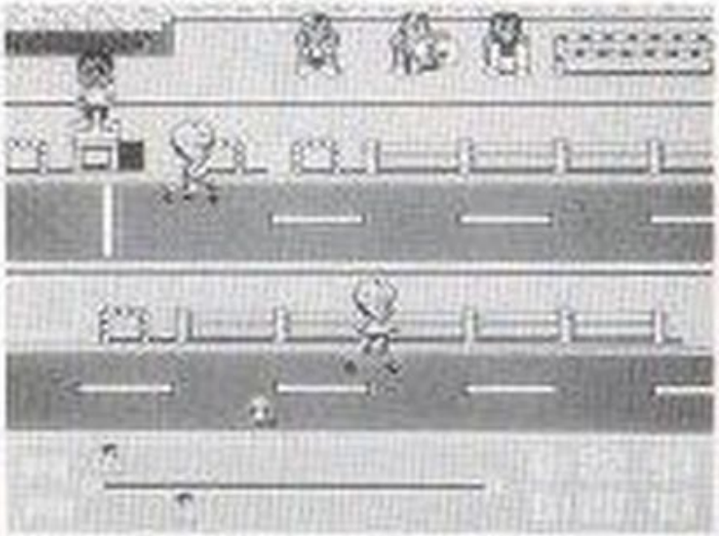


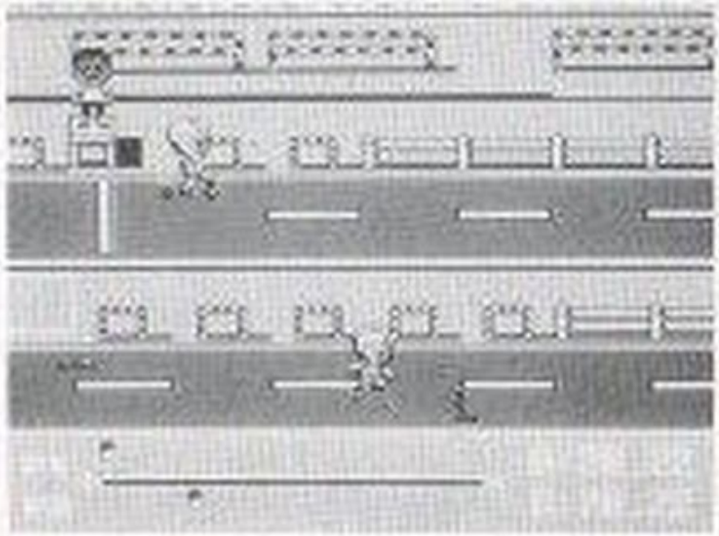


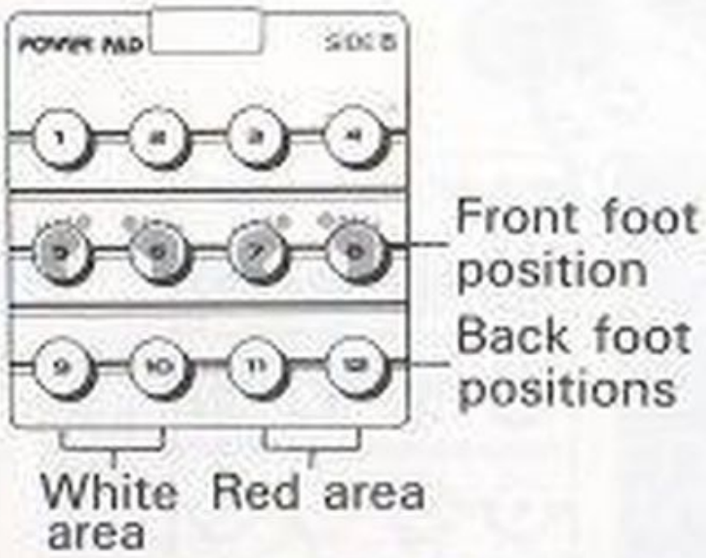
As soon as this event begins, pump up the bubble with your hands. It's no easy job running around inside the bubble! You'll get the hang of this if you keep your balance.

(Skateboard Race)

•Skateboard Race

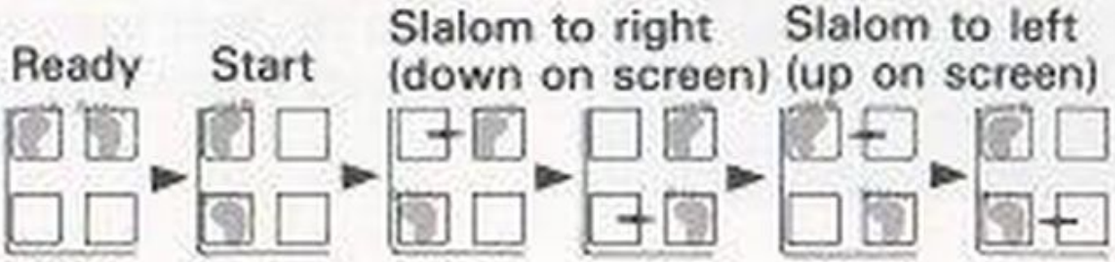






Let's take a break from running and enjoy some skateboarding. Either jump or slalom to avoid the obstacles. When you slalom you travel faster. But watch out! It also becomes more difficult to clear the obstacles. Find just the right speed.

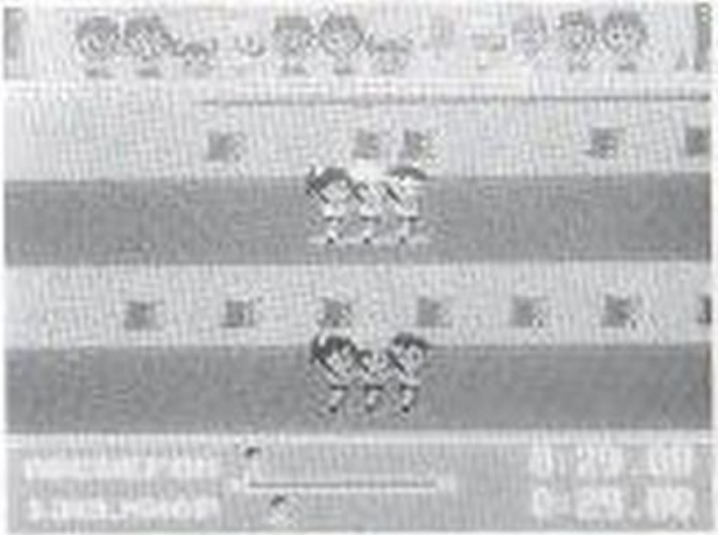
How to skateboard on the Power pad.

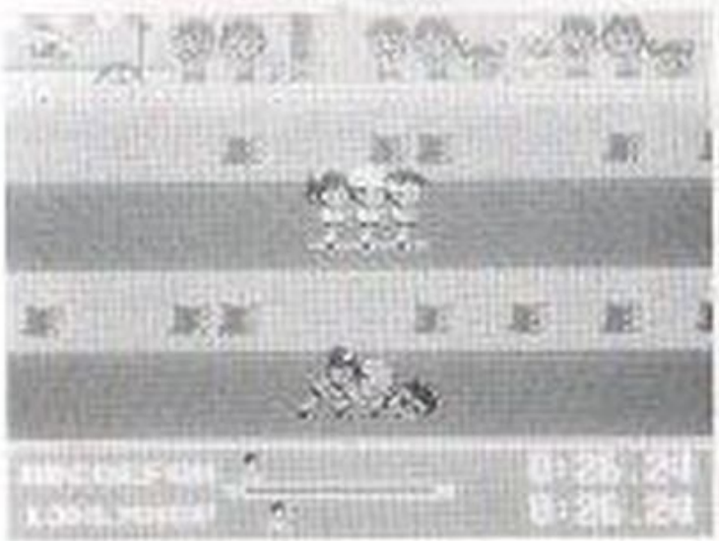


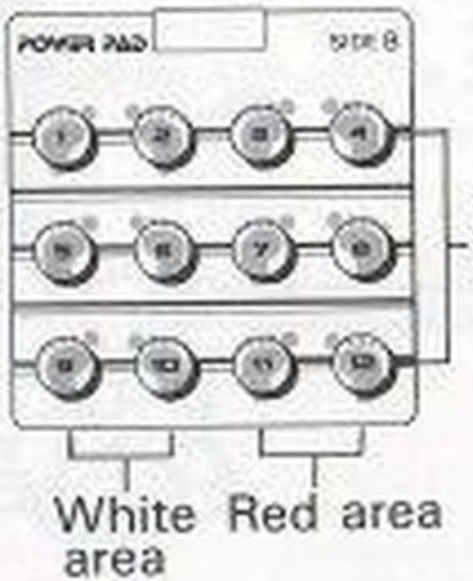
• Always land on the Power Pad after a jump.

(6 Legged Race)

•6 Legged Race



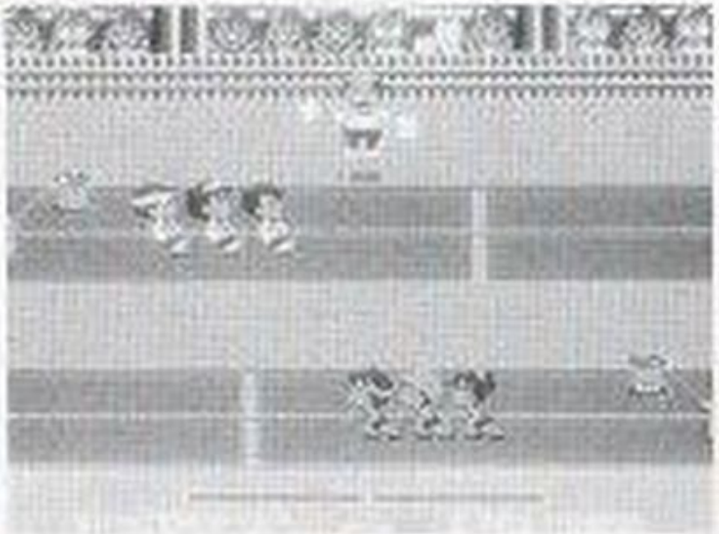


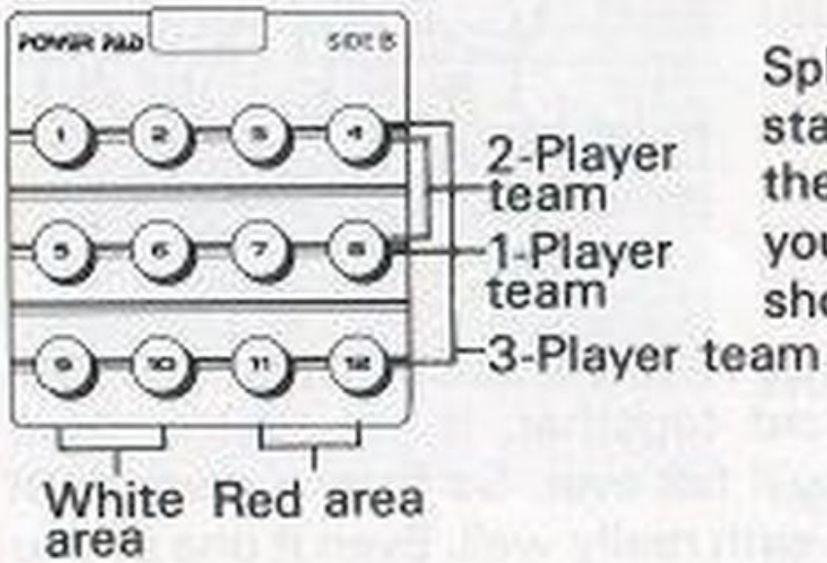


Each team is made up of three competitors and they have to move forward together. If you don't move together in a line, you'll fall over. So form a team with others you get along with really well. Even if one of you has fallen over, keep on walking. That's the key to winning!

(Tug of War)

• Tug of War

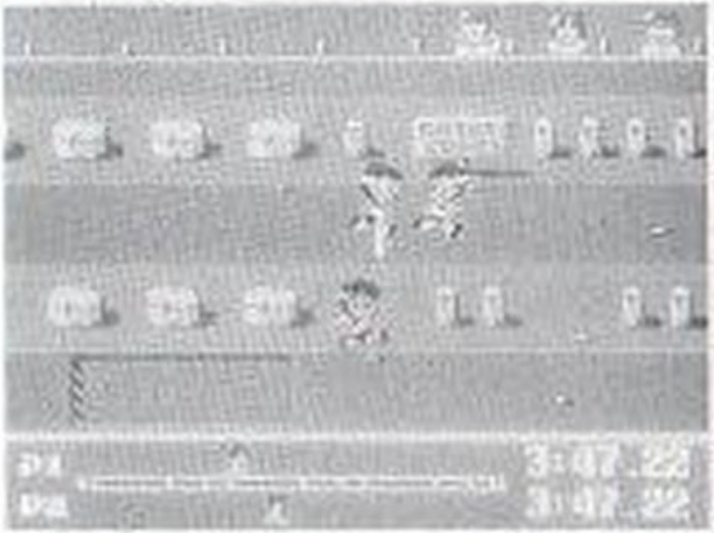




Split up into two teams and as soon as you hear the starter gun ... Go! Go! Go! The team that has run on the Power Pad the most wins. Drag the opponents into your area. After 30 seconds the position of the ribbon shows who's won.

(Relay Race)

•Relay Race



Operating the Power Pad is just the same as earlier events. When the 2nd runner appears, the screen will pass on the baton for you. During this time, substitute in another team member and Go!

COMPLIANCE WITH FCC REGULATIONS

This equipment generates and uses radio frequency energy and if not installed and used properly, that is, in strict accordance with the manufacturer's instructions, may cause interference to radio and television reception. It has been type tested and found to comply with the limits for a Class B computing device in accordance with the specifications in Subpart J of Part 15 of FCC Rules, which are designed to provide reasonable protection against such interference in a residential installation. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

—Reorient the receiving antenna

—Relocate the NES with respect to the receiver

—Move the NES away from the receiver

—Plug the NES into a different outlet so that Control Deck and receiver are on different circuits.

If necessary, the user should consult the dealer or an experienced radio/televison technician for additional suggestions. The user may find the following booklet prepared by the Federal Communications Commission helpful:

How to Identify and Resolve Radio—TV Interference Problems.
